Magic: Dürer's square

$\sum z = 0$ $\quad \sum z = 0$ $\quad \sum z = 0$ $\quad \sum z = 0$

$\sum \vec{p} = (0, 6, 0)$ $\quad \sum \vec{p} = (-6, 0, 0)$ $\quad \sum \vec{p} = (0, 0, 0)$ $\quad \sum \vec{p} = (0, 0, 0)$

Not magic: Dürer's square with 3 and 5 swapped

$\sum z = +2 \neq 0$ $\quad \sum z = -2 \neq 0$ $\quad \sum z = 0$ $\quad \sum z = 0$

$\sum \vec{p} = (0, 6, +2)$ $\quad \sum \vec{p} = (-6, 0, -2)$ $\quad \sum \vec{p} = (0, 0, 0)$ $\quad \sum \vec{p} = (0, 0, 0)$
